

## THE SPANISH ARMADA.

The Cape Verde Fleet Has Returned to Cadiz--Was Not Anxious to Meet the Fate of Montijo.

### NO NEWS FROM ADMIRAL SAMPSON'S SQUADRON.

Some Anxiety at Washington on This Account--It Is Believed the Brazilian Cable Has Been Cut--More Captures Reported.

### A RUMORED REPORT THAT ADMIRAL MONTIJO HAS BEEN ASSASSINATED.

New York, May 10.—The Journal's Cadiz correspondent cables that the Cape Verde fleet has returned to Cadiz, instead of going to Porto Rico, as was anticipated. This last move indicates that Spain intends to organize a mighty fleet, and by one bold stroke endeavor to destroy the American fleet. It is also possible the Spanish fleet will be sent to protect Havana.

Washington, May 10.—It has been learned from reliable sources that the Cape Verde fleet has returned to Cadiz.

It is believed here that this means Spain will mass a monster fleet to either attack some of the Atlantic coast cities, or by united effort attempt to destroy the American fleet in Cuban waters.

This also indicates that Spain will make no immediate attempt to prevent the invasion of Cuba by American troops.

#### MORE CAPTURES REPORTED.

Key West, May 10.—Two more captures by the American fleet have been reported. One was the Spanish vessel Condita, and the other was the Norwegian steamship, Bratsberg. Both of these vessels were trying to run the blockade.

#### REGULARS ORDERED TO TAMPA.

Chattanooga, May 10.—Preparations for the movement of troops are being made hurriedly. All the regulars, who have been ordered to Tampa, will leave within the next forty-eight hours.

A number of volunteer companies are expected here shortly.

#### WILL BE SENT SOUTH.

Washington, May 10.—The war department has countermanded the order mobilizing the troops at Chattanooga, and the volunteers will be sent to Mobile and Tampa at once.

This is taken to mean that the invasion of Cuba will be undertaken much sooner than was generally supposed.

#### NO NEWS FROM SAMPSON.

Washington, May 10.—There is considerable uneasiness felt by the navy department because of the absence of definite news regarding the movements of the Spanish fleet and that under the charge of Sampson.

#### SUPPLIES FOR CUBANS.

Tampa, May 10.—The steamer Gussie, one of the Mallory line boats chartered by the government for use as a transport, sailed for Cuba today, loaded with arms, ammunition and supplies furnished by the United States government for the use of the Cuban insurgents. A company of 100 United States troops from the First regiment of infantry accompanied the expedition to aid in guarding the landing of the valuable cargo, and will, if necessary, penetrate into the interior far enough to place the supplies in the hands of the insurgents.

#### ORDERED TO DIE FIGHTING.

London, May 10.—It is announced today in a special dispatch from Madrid that the Spanish ministers of war and marines, Gen. Correa and Admiral Bermejo, declare they do not expect Manila to be attacked before the arrival of reinforcements from Rear Admiral Dewey from the United States.

The dispatch adds that orders have been sent to Gen. Agusti, the governor general of the Philippine islands, to resist to the death any attack of Manila.

#### NO MATERIAL CHANGES.

Washington, May 10.—At today's special cabinet meeting the leading subjects of discussion were the measures to be taken to re-inforce Admiral Dewey at Manila, and the probable movement on Cuba. As to the former, there has been no material change in the plan. Approximately 6,000 troops will be dispatched on the City of Pekin and

All the American consuls in the West Indies have been wired to report immediately any news of the fleets. Severe storms have been raging during the past few days, and this fact doubtless adds to the feeling of uneasiness.

#### GEN. MILES GOES TO TAMPA.

Washington, May 10.—Gen. Miles, accompanied by his staff, will leave for Tampa tonight to lead the first expedition to Cuba. This is considered very significant, and it is believed that the much-talked-of and long-expected invasion of Cuba will begin at once, under the personal direction and leadership of Gen. Miles.

Orders have been issued by the war department for the rapid mobilization of the troops at Tampa.

#### BRAZILIAN CABLE CUT.

New York, May 10.—It is believed here and also in Washington that the Brazilian cable has been cut by order of the Spanish government, in order that they may get their fleet to Manila with the hope of ambushing Dewey.

#### ADMIRAL MONTIJO KILLED.

London, May 10.—A Hong Kong special says it is reported that Admiral Montijo has been massacred by the insurgents, while attempting to escape from Manila. It is known that thousands of insurgents occupy the hills surrounding Manila, and this fact gives color to the above sensational rumor.

#### TROOPS ARE ALMOST READY TO MOVE.

Tampa, May 10.—Four field guns of the same calibre as those already in the artillery camp at Port Tampa have arrived here and have been assigned to various batteries at Port Tampa, all of which are now equipped with their full complement of six three and two-inch field guns. The work of unloading the ammunition and supplies of provisions brought in by the steamer Alamo was concluded yesterday and today the big vessel is being given an overhauling. Work on the other transports is being pushed as rapidly as possible.

By tomorrow or Thursday it is thought everything will be in readiness for the word to embark. All eyes are now turned toward Porto Rico and word from Admiral Sampson is anxiously awaited.

#### CUBAN GENERAL RETURNS.

Washington, May 10.—Maj. Gen. Nunez, of the Cuban army, arrived here last night on his return from landing a party in Cuba. This landing was made immediately after conferences between Gen. Nunez, Gen. Miles and Senor Quesada, the Cuban delegate, about two weeks ago, and was for the purpose of opening up communications with Gen. Garcia and Gomez. After a brief conference with Mr. Quesada, Gen. Nunez left for New York, where he will make a report to President Palma. The results of his trip are guarded with much care by the Cuban officials here, who deem it inexpedient to discuss what Gen. Nunez did. It is said, however, that his party found no difficulty in establishing communications with the Cuban commanders in the field. It is understood General Nunez will continue organizing parties of Cubans to go to the front, and will have command of the united Cuban forces other than those already in the field under Garcia and Gomez.

#### NO ONE WANTS THEM.

Madrid, May 10.—The political situation here is unchanged. The consultation between the queen regent and Senor Gamszo, liberal leader, as well as the queen regent's conference with Senor Montojo, president of the senate, have been without result. Everybody appears loath to assume the responsibilities of assuming office under the existing condition of affairs.

#### SHORT OF ARMS AND FOOD.

Key West, May 10.—An artist who has just arrived from Gomez's camp says that there are 18,000 Cubans in the neighborhood of Sancti Spiritus, but they are short of arms and ammunition. They also have difficulty in obtaining sufficient food, but are full of enthusiasm and desire to co-operate with our army. The condition of the reconcentrados is described as pitiable in the extreme.

To Cure Constipation Forever. Take Cascaria Candy Cathartic. 10c or 25c. If C. C. C. fail to cure, druggists refund money.

No-To-Bac for Fifty Cents. Guaranteed tobacco habit cure, makes weak men strong, blood pure. 50c. All druggists.

#### MEN OF MODERATE MEANS

Need no longer regard tailor-made clothes with fear and trembling. Dalton now makes clothes in his own shop, here at home--makes the clothes right makes the bill right. It costs but a trifle more to wear garments that fit than those that a'most fit. The acme of style and workmanship is ours. Drop in at 333 Broadway and see about that belated spring suit. You'll be glad you waited--it will cost you so little.

DALTON, THE TAILOR

#### MOB AT LINARES.

Madrid, May 10.—There was serious rioting at Linares, 23 miles from Jaen, Sunday. The mob assembled in front of the town hall, and, finding the doors locked, tore out the windows, swarmed into the building and threw everything movable into the streets. The civil guards intervened and a desperate struggle followed in the passages of the building.

The rioters were finally driven out by the civil guards, who frequently fired into the mob. Some of the rioters procured guns and returned the fire. Fourteen persons are said to have been killed and about sixty wounded. The local forces are not considered strong enough to cope with the disturbance and reinforcements of troops have been asked for.

Riots have broken out at Cadiz and Alicante. More trouble is feared.

Later the mob made another attack on the town hall and drove out the civil guards. The rioters were well supplied with ammunition and kept up a galling fire while shouts of "Down with the taxes" were raised on all sides.

After forcing an entrance into the town hall, the rioters pillaged the building, subsequently capturing the residence of the tax collector by assault. They demolished everything in sight, stole 2100 pretas and a box of jewels and attempted to set fire to the house.

Serious disorders have occurred at Brones, near Seville, at which place the village priest has been stoned to death.

Revised figures show that 12 men were killed and 50 wounded at Linares. The bodies of the killed and the wounded persons were allowed to lie on the streets, the fusillade from the town hall being so incessant that it was impossible to rescue the wounded.

The last reports received from Linares said the fighting was continuing and that profiting by the confusion, merchants and others were introducing quantities of goods into the town without paying the duties.

#### TROOPS FOR MANILA.

San Francisco, May 10.—Within this week 5,000 men will be quartered at Linares in this city, awaiting transportation to Manila. Every day troops from Oregon, Washington, Utah and Idaho will be pouring in, and the work of mustering in the militia will continue. The state and federal authorities here are working night and day to have all in readiness when the transports lie alongside the wharves for their freight. Gen. B. C. Merriam is expected hourly from Vancouver. Word came from Washington late last night that all branches of the service would be represented in the first shipment of troops to the Philippines, and that California had earned the warm commendation of the secretary of war for its admirable celerity in mustering in its quota and for the character of those that composed it. No effort is being spared to get into the ranks of the army and navy every company in California.

Adjutant-General Barrett has sent to Gen. Greeley, chief of the signal corps at Washington, a notification that 100 men of California's signal corps stands fully equipped and well qualified to go to the front immediately. The naval militia is urging the representatives of the state in Washington to help them out in their deplorable condition of inaction. They are extremely anxious to be assigned to duty.

The vessels in port or expected here during the next 48 hours that could be used as transports for men.

#### THE \$5 VIVE CAMERA

Is splendid value for your money—twelve plate holders free. If you intend buying a camera drop in and see samples of pictures taken with this instrument. Instruction free. Cameras from \$1.00 to \$50.00. Photographic supplies of all kinds.

#### NO NEWS FROM SAMPSON.

Washington, May 10.—Having definite information that the Spanish fleet, which left St. Vincent ten days ago, is not at the Canaries or at Cadiz, the authorities confidently predict that Rear Admiral Sampson will engage it in battle within the next forty-eight hours.

The official view tonight is that the Spanish fleet is at some point in the Windward Islands, which are to the south of Porto Rico. If this be so, their presence will shortly be reported by the American scouts which are patrolling along a degree of longitude to the northward of the Barbadoes.

It was pointed out today that ten days have elapsed since the fleet left St. Vincent, and going at the rate of ten knots an hour, they should by this time have covered the distance to San Juan.

Another official called attention to the fact that when the Viscaya and Almirante Oquendo sailed for the Cape Verde islands from San Juan they left the latter port on April 8 and did not reach their destination until April 22. It was possible, this expert thought, that the Spanish fleet on its voyage to San Juan might consume an equal period. In this event, the American and Spanish fleets will not sight each other before Thursday or Friday.

#### PROVISIONING FORTS.

Kingston, Jamaica, May 10.—The Spaniards are trying to provision the forts of Eastern Cuba before the blockade begins. Today shipping merchants here received cable requests from Santiago and Manzanillo for cargoes of food. It is represented that there is time yet to market large quantities of provisions. Two schooners have been chartered here and one has been chartered at Montego bay.

#### SPANISH PROVISION ORDERS.

Kingston, Jamaica, May 10.—Spaniards are trying to provision the fortifications of Eastern Cuba before blockade begins. Local shipping merchants today received large orders for food from Santiago and Manzanillo.

#### GEORGE WEAKLY'S CASE.

The case against Geo. Weakly, charged with detaining Anna Rowlett, colored, against her will, is to be tried tomorrow morning in the police court. It is Weakly's fourth offense.

#### SITUATION IN SPAIN.

Madrid, May 10.—The disorder in the Spanish provinces is on the increase.

Windows have been broken at Cadiz and Alicante, and the troubles are expected to spread to parts of the country which have hitherto been quiet.

Martial law has been proclaimed in the provinces of Albaceta and Jaen. At Martos, nine miles from Jaen, men, women and children have been parading the streets crying, "Death to the thieves."

There was serious rioting at Linares, twenty-three miles from Jaen, yesterday. The mob assembled in front of the town hall, and, finding the doors locked, tore out the windows, swarmed into the building and threw everything movable into the streets.

The civil guard is intervened and a desperate struggle followed in the passages of the buildings. The rioters were finally driven out by the civil guards, who frequently fired into the mob. Some of the rioters procured guns and returned the fire.

The local forces are not considered strong enough to cope with the disturbance, and re-enforcements of troops have been asked for.

The mob made another attack on the town hall at Linares and drove out the civil guards. The rioters were all supplied with ammunition and kept up a galling fire, while shouts of "Down with the taxes" were raised on all sides.

#### MILLIONAIRE SUICIDES.

Washington, May 10.—It is reported that Charles Havemeyer, the New York millionaire, has committed suicide in New York by shooting himself with a pistol.

#### DIED TODAY.

Mr. John Michael Schroth Joins the Silent Majority.

Mr. John Schroth, an aged and highly respected citizen, died this morning, after an illness of several weeks. He had been a resident of Paducah for many years, and will be greatly missed.

He was born Oct. 9, 1825, at Langenbrandt Wurtenburg, Germany, and emigrated to America in the year 1846. He came to Paducah in 1848. In 1851 he was married to Miss Rosina Kettler. He leaves besides a wife, three children, Mrs. H. Runge, Mrs. Theo Peters and Mr. H. Schroth. He was a member of the German Lutheran church. The funeral services will be held tomorrow at 2 p. m. Services at the family residence at 2:30 p. m.

## SUPPLIES FOR CUBANS.

Tampa, May 10.—The steamer Gussie, one of the Mallory line boats chartered by the government for use as a transport, sailed for Cuba today, loaded with arms, ammunition and supplies furnished by the United States government for the use of the Cuban insurgents. A company of 100 United States troops from the First regiment of infantry accompanied the expedition to aid in guarding the landing of the valuable cargo, and will, if necessary, penetrate into the interior far enough to place the supplies in the hands of the insurgents.

He can land 1,000 armed men and those would not be sufficient to prevent murder, rapine and pillage. If we take Manila the French and British warships here will land forces to protect their own people in Manila and their own interests.

Not less than 5,000 troops are really needed to occupy the principal cities in the Philippines. Dewey has already asked for them and has received assurances that they will be sent as quickly as ships can be made to transport them.

The people of Hong Kong make no concealment of their joy at our victory. Sentiment here is unanimous that the Philippines will pass into British control when the war ends, becoming part of the colony of Hong Kong.

The Englishmen here all agree that this would have the effect of greatly increasing the importance of British interests in China.

Connection with the fleet by cable is to be re-established. A cable operator is now on board the revenue cutter with all of the instruments, wires and other necessary appliances with which to set up a cable station.

The broken cable, which is already secured, is to be hauled on board the transport Zafro, and there the operator and the station are to be located. Then there will be constant communication between the fleet and the United States.

The Zafro is one of the two big transports, or colliers, chartered by Commodore Dewey and taken with the squadron laden with supplies. It will make an admirable terminal for the cable.

Incandescent lamp globes suitable for systems for sale at McPherson's. Sold in Paducah.

All the American consuls in the West Indies have been wired to report immediately any news of the fleet. Severe storms have been raging during the past few days, and this fact doubtless adds to the feeling of uneasiness.

## GEN. MILES GOES TO TAMPA.

Washington, May 10.—Gen. Miles, accompanied by his staff, will leave for Tampa tonight to lead the first expedition to Cuba. TUESDAY, MAY 10, 1898.

When the expenses of the government during the civil war amounted to \$1,000,000 a day, it was thought the climax of expenditure in that line had been reached. The supposition was false. The cost of the war with Spain has already passed that mark, and the end is not in sight.

In round numbers Sampson's squadron has a displacement of 46,000 tons, and can throw 20,000 pounds of metal at one discharge, while the Spanish Cape Verde squadron has a displacement of 29,000 tons and a discharge of 10,000 pounds. Bring on that other invincible Armada!

The Omaha World-Herald (silver organ), in a recent issue, calls attention to the improved conditions of the dairy and poultry business in Nebraska, and says: "Today the creamery industry, with its attendant industry, poultry and eggs, is making rapid strides forward. By degrees the western Nebraska farmer is learning how to make the most of climatic conditions and the time is near at hand when the drought will have no fears for him." And all this is happening without the free and unlimited coinage of silver.

Every war which has heretofore been entered upon since the organization of the government was begun under the administration of a man without military experience, whether it be the war with the Barbary States in 1803, and again in 1815, the war of 1812, the war with Mexico, or the war of the Rebellion. Possibly President McKinley's practical knowledge of war and of the losses of life and all the sorrows which accompany it, may have had something to do with his willingness, anxiety, indeed, to bring the questions which have been constantly before him since his inauguration to a peaceful solution. If this be true, it was because of this practical knowledge of the horrors of war and the sufferings

they must bring, for there is nothing in William McKinley's personal history on the battlefield to show lack of courage.

The proposal to tax "futures" is a novel one, but if every deal was taxed two cents on the 1,000 bushels of wheat bought or sold we could almost pay the war expenses.

The wheat market continues to boom. Just how much Leiter wishes to squeeze out of the boys is unknown. With another naval victory wheat would go to \$2.

There is no reason, when the Star Spangled Banner is pulled down in the Philippine islands, there should be left a republican form of government there. This war is a campaign of education. It is necessary that each one should have a coal yard and good harbor for us.

The Frenchmen are beginning to realize the advantages of the American protective tariff. The Paris "Journal," in a recent article on wages in the United States, says that operatives in the Massachusetts shoe factories earn \$15 a week, while those in Europe similarly employed earn only \$4 a week, and adds: "The wool manufacturers of the United States underbid those of the old world, the woolen and cotton factories are infringing upon the products of European looms, and even the American bicycle is crowding out those of our own manufacture."

American will reap rich financial harvests in Cuba, whether it be annexed or not, and in the years not far distant the population will be largely American in either case. American capital will predominate and American ideas of government will obtain. On account of the right hand of fellowship now extended by Uncle Sam, Americans will be welcomed by the Cubans, and given concessions greater than any other nation. The relationship between the countries will be very close, and the commercial interests of one identical with those of the other.

On account of its climate Cuba has great recuperative powers, and when the patriots have beaten the sword into the plowshare it will be but a short time until all traces of the recent devastation will have disappeared. There will be no further destruction of crops, as the insurgents hold the situation, and the rainy season, now approaching, will obliterate many signs of ruin made during the past two years. The Pearl of the Antilles will shine all the brighter for its baptism in blood and will cast its radiance over all the globe, whether it be only a single gem or is worn in the crown of Columbus.

This nation loves to honor its heroes.

It, according to spiritualists, the heavenly host won the battle of Manila, what use was there for 10-inch rifled guns?

The President is reported as saying the war may end in a week. This would put an extinguisher on the military ambition of Camp Collier.

The United States must follow its destiny. Facts cannot be set aside. Causes produce the legitimate effects and these can neither be set aside or prevented. Uncle Sam is in the swim, but he cannot control the currents.

Full notice should be given and Manila should be shelled into submission, as long as there is a shot in the magazines, if so many were necessary. Those Spaniards must surrender and get out.

England holds the position in this war, to make it longer or shorter. There is no doubt she is friendly to us and wishes to see us beat Spain—and there is less doubt that she has her weather eye open to some scheme of profit in the course of the deal.

There is a strong suspicion that the many millions of bushels of wheat delivered by Armour to Leiter some three months ago, was but a part of the plan to corner wheat by those two worthies, on pretense they were fighting each other. Leiter is the figure head, but Armour is now sharing the profits—so it is believed.

Spain is no new colonial policy about to be adopted—republican or otherwise. We are at war, and it is a necessity to "spoil the Egyptians" of their lands and property, in order to force them to an honorable and lasting peace. Uncle Sam has no idea, nor is there any necessity of colonization. We have no overflowing population to provide new lands for, but we have a commerce to protect, and it must be done in the safest manner. The ownership of a few islands does not carry the idea of a colony with it, nor of colonization, but more substantially, a coal pile and a friendly harbor in peace and war.

That the war is likely to temporarily check some of the business improvement which followed the rejection of free silver and the adoption of a protective tariff is shown by recent reports to the New York Commercial, which, commenting upon the results of its inquiries, says: "From every state comes the story of timid buyers, purchasing only the smallest possible quantities of goods, of manufacturers receiving cancellations of orders and of a general stagnation of business and an uncertainty as to the future. Nearly all lines of trade report that, until the uncertainty as to war prospects arose, the country was in a fair way to resume its old-time prosperity, but that everything has felt the effects of the agitation."

### THINKS WAR WILL END SOON.

Washington, May 10.—The President may find that it will require but one more demonstration on the part of this country to compel the immediate withdrawal of Spaniards from Cuba.

The President said last week that he did not believe the actual war would last a week longer. He has not changed his opinion. The one decisive step remaining to be taken, he hourly expects. This will be a sea battle between the American fleet under command of Admiral Sampson and the Spanish ships commonly known as the Cape Verde fleet.

### SPAIN'S NECESSITIES.

London, May 10.—The Vienna correspondent of the Standard says: "The Vatican, the Vatican organ, advises the administrators of church property in Spanish dominions to take measures with all speed whereby the title to that property and the usufruct of it would be secured by way of timely transfer to trustworthy private individuals."

"Nobody knows what is going to happen in Spain, and not only are we preparing to learn that a conquest of the Philippines is to be followed by the abolition of convent and monasteries, but we are also informed of an intention in Spain, in case of further reverses, to close all the convents and sell their estates for the nation."

## Society Notes.

The Shakespeare club will meet Friday afternoon with Mrs. Annie E. Given, on West Broadway.

A german will be given this week at the Campbell building. The date has not been decided yet.

Mrs. Henry Thompson entertained three tables at euchre in honor of Mrs. Wm. Burwell, of Norfolk, Va., Saturday afternoon from 2:30 till 6. Mrs. Hollingsworth was fortunate in winning the prize.

Mr. Franklin Leavitt left yesterday for St. Louis, after spending several days with his wife, who is visiting her parents, Mr. and Mrs. Maurice Nash, on Ninth street.

Miss Reubie Cobb will entertain the Cincque club on Friday afternoon.

Mr. Gus Thompson left today for St. Louis on business.

Mr. Jim Campbell was quite sick for a few days, but is on his feet again.

Mr. Chas. Humphrey spent several days in the city, and left yesterday, after doing fair business.

Mrs. P. W. Hollingsworth will entertain the Married Ladies' Euchre club at the Palmer tomorrow at 2 p. m.

Mrs. Thos. Leech is entertaining the Married Ladies' Crokinole club and a few friends this afternoon at the Palmer.

Saturday evening at the Y. M. C. A. there will likely be given a straw-berry supper for the purpose of assisting off some debts made by the association.

Blind Joe Mangrum was unable to get here last week as expected, but will likely reach here this week, in which case, the concert will take place immediately on his arrival.

If Spain were asked what it thought of the United States I am quite sure it would not answer with its common proverb, "Parque caso Mari Frances quatro leguas de Salamanca," which is an evasive answer to a question but without hesitating say, "We fear Uncle Sam is going to whip us bad." That's "no joke either."

Matrimony is very contagious. It has amounted almost to an epidemic in our city for several seasons. It is generally known but not much talked about yet that a certain young South Side man who rides a burnt orange wheel and goes to St. Louis real often, is very much in love, not with himself, however, but with a charming St. Louis young lady. This dear old town does not look as if it held many romances, but it does, at least this case is romantic to a degree scarcely ever reached, except in the vivid imagination of some of the authors and readers of our elevating class of literature, commonly known as the "yellow back novels," and yet it is short and seemingly unusual. They met; they loved; they parted, still loving. Yet she is to marry another. These main facts are rather common place, but, any

DEWEY MADE REAR ADMIRAL

## In His Message President McKinley Speaks For the Nation—\$10,000 Voted For Sword and Medals.

Washington, May 9.—The president today sent the following message to congress:

To the congress of the United States: On the 24th of April I directed the secretary of the navy to telegraph orders to Commodore George Dewey, of the United States navy, commanding the Asiatic squadron, then lying in the port of Hong Kong, to proceed to Manila, Philippines, to protect our interests and to engage the assembled Spanish fleet.

Promptly obeying that order, the United States squadron, consisting of the flagship Olympia, Baltimore, Raleigh, Boston, Concord and Petrel, with the revenue cutter McCulloch as an auxiliary dispatch boat, entered the harbor at Manila at daybreak on the 1st of May and immediately engaged the entire Spanish fleet of eleven ships, which were under the protection of the fire of the land forts. After a stubborn fight, in which the enemy suffered great loss, these vessels were destroyed or completely disabled and the water battery at Cavite silenced. Of our brave officers and men not one was lost and only eight injured, and those slightly. All of our ships escaped any serious damage.

By the fourth of May Commodore Dewey had taken possession of the naval station at Cavite, destroying the fortifications there and at the entrance of the bay and paroling their garrisons. The waters of the bay are under his complete control. He has established hospital within the American lines, where 250 of the Spanish sick and wounded are assisted and protected.

The magnitude of this victory can hardly be measured by the ordinary standards of naval warfare. Outweighing any material advantage is the moral effect of this initial success. With this unsurpassed achievement, the great heart of our nation throbs, not with boasting of wide greed of conquest.

With deep gratitude that this triumph has come in a just cause, and that by the grace of God an effective step has thus been taken toward the attainment of the wished-for peace. To those whose skill, courage and devotion have won the fight, to the gallant commander and the brave officers and men who aided him, our country owes an indebtedness.

Feeling as our people feel, and speaking in their name, I at once sent a message to Commodore Dewey thanking him and his officers and men for their splendid achievement and "overwhelming" victory, and informing him I had appointed him acting rear admiral.

I now recommend that, following our national precedents and expressing the fervent gratitude of every patriotic heart, the thanks of congress be given to the brave Admiral George Dewey, of the United States navy, for his highly distinguished conduct in conflict with the enemy, and to the officers and men under his command for their gallantry in the destruction of the enemy's fleet and the capture of the enemy's fortifications in the bay of Manila.

WILLIAM M. KINLEY, Executive Mansion, May 9, 1898.

Senator Hale and Representative Boutwell, chairmen respectively of the senate and house committees of naval affairs, were called to the white house during the cabinet session to consider the resolution of thanks recommended in the president's message. They spent but a few minutes, and the two chairmen subsequently met at the Capital and decided upon the form of legislation for making Commodore Dewey a rear admiral, to be introduced simultaneously.

The congressional resolution is as follows: "Joint resolution tendering the thanks of congress to Commodore George Dewey, U. S. Navy, and the officers and men of the squadron under his command. Resolved, By the United States of America, in congress assembled, that in pursuance of the recommendation of the president, made in accordance with the provisions of section 1,508 of the revised statutes, the thanks of congress and of the American people are hereby tendered to Commodore George Dewey, U. S. N., com-

## BOMBARDMENT OF MATANZAS

While the United States army is bombarding Matanzas and other cities Gardner Bros. & Co. have bombarded prices of Furniture, Carpets, Mattings, Stoves, Upholstering, Awnings

And house hold furnishing goods of all kinds, and, like the United States army, it has proven a great success—not only for Gardner Bros. & Co., but also for the ones who have taken advantage of the bombardment, and saved money thereby. Those who have not seen for yourselves, call at once and see the ruins of former prices.
